

Welcome to the school of the future.

We anticipate rapid growth to become the largest international school in Wrocław and the preferred choice for both local and foreign families seeking an English-medium, international education. We will achieve this by ensuring high-quality outcomes and careful attention to detail in all areas of the school's curriculum and operations. In addition, we are committed to developing the best team of teaching staff in Wrocław through transparent contract terms, opportunities for professional development and higher salaries than our competitors.

We expect consistently outstanding teaching and learning, with students experiencing high levels of engagement and motivation at all times; a rich programme of sporting and extra-curricular activities; an engaged and committed school community and academic excellence in national and international assessments.

All areas of the school's curriculum, assessment and operations are guided by the following six values, which should be visible in all staff's actions and professional conduct: **intellectual, international, inquisitive, inspired, innovative** and **inclusive**.

Our mission can therefore be summarised as **the relentless pursuit of innovation and excellence** in all areas of school life, pedagogy and operations.
